Farmers State Bank

Making a **difference** in our **communities**.

Important Notice Regarding Current Operating Conditions at Farmers State Bank

Farmers State Bank has developed the following plan to help protect employees and customers:

- Farmers State Bank has instituted an employee health screening process. This process requires each employee that works on FSB premises to certify they do not have any symptoms that may indicate they could be infected with COVID-19 (Coronavirus) each day when they report to work.
- Farmers State Bank has employed enhanced cleaning and disinfecting protocols for all locations. We will regularly clean high touch surfaces as a part of these procedures.
- Our employees will have access to hand sanitizer or have the ability to take other personal hygiene measures such as washing hands. When our branches become open to the public, customers will have access to hand sanitizer when inside our branch lobbies. Our employees will be encouraged to take frequent breaks to wash their hands.
- Farmers State Bank strives to comply with social distancing measures established by the CDC, including maintain six-foot social distancing for both employees and members of the general public when possible and/or employing other separation measures such as wearing face coverings or using barriers.
- Farmers State Bank offers a variety of online and electronic options to meet all customer banking needs. When visiting a branch, we encourage the use of our Drive Up and Walk Up services when possible. Appointments can be scheduled at all locations as needed.
- Our employees within certain positions have the ability and have been encouraged to work remotely as much as possible.
- FSB requires face coverings to be worn by our employees and customers in all locations.
