

# The New Bluetooth Clover<sup>®</sup> Go

In 2016, Clover Go launched the next evolution in mobile payments innovation, providing merchants with the power to process contactless payments (including Apple Pay<sup>®</sup>, Android Pay<sup>™</sup> & Samsung Pay<sup>™</sup>), along with traditional chip & swipe transactions, through one simple device!

Perfect for merchants that cannot plug directly into a mobile device through an audio jack – the new Clover Go Contactless + Chip + Swipe reader [connects with a merchant's phone or tablet via Bluetooth<sup>®</sup>](#).

## Faster than Ever

The Bluetooth Clover Go can process payments in **less than 4 seconds** – **2X faster** than previous Clover Go Solutions.

## Available Beginning October 10, 2016

The Clover Go Bluetooth reader can be augmented with an optional charging stand.

## New Clover Go App Download

An updated Clover Go app is available. The latest app version includes:

- Support for the new bluetooth reader
- **Open Orders:** Ability to start a transaction with Clover Go, Clover Station, Mini, or Mobile, then complete later with Clover Go
- **Show-in-Register:** Ability to control inventory items displayed in app
- In-app Troubleshooting and Device Diagnostics

The Android minimum supported version will change from 4.1 to 4.4 or higher
